

Hola amigos:

Les presento este trabajo, basado en la idea precursora de EduardoLuis/Argentina, "Phonebook" <http://www.hmgforum.com/viewtopic.php?f=14&t=2624>

Tambien gracias al amigo Javier Tovar, que ha modificado mi "LineBoxOrnaments" que en su día publique, <http://www.hmgforum.com/viewtopic.php?f=15&t=1389> y que he creado un nuevo fichero , unificando sus apreciados aportes ornamentales con el nombre de "hmg_BoxLetterShow.ch"

Este nuevo trabajo experimental esta basado mas en el aspecto decorativo que en el aspecto tecnico, se basa principalmente en remplazar Botones por Labels ocultos que hacen la Action "transparente", hay algunas funciones de click de raton , los "Exit" de las distintas paginas de la agenda que estan ocultas,pero intuitivas que he documentado con algunos pantallazos, que he intentado hacer mas comprensibles.

Miren en la carpeta \Help_Screenshot

Bueno espero que les guste

Saludos
Mustafa.

Hello friends:

I present this work, based on the idea precursora EduardoLuis / Argentina, "Phonebook" <http://www.hmgforum.com/viewtopic.php?f=14&t=2624>

Also thanks to our friend Javier Tovar, who has changed my "LineBoxOrnaments" that published at the time, and I <http://www.hmgforum.com/viewtopic.php?f=15&t=1389> created a new file, unifying their prized ornamental contributions with the name "hmg_BoxLetterShow.ch"

This new experimental work is based more on the decorative aspect that Technically, is based mainly on replacing Buttons hidden by Labels Action to make "transparent", there are some functions click mouse, the "Exit" different pages of diary that are hidden, but easy to I have documented some screenshot, I've tried to do more understandable.

Look in the folder \Help_Screenshot

Well hope you like it

regards
Mustafa.
